# 11.1 Layers of the Atmosphere

Use the table below to organize the information in Section 11.1 of your text. You can use the table as a study guide as you review for tests.

| Layer        | Distance from Earth's Surface | Thickness | Facts |
|--------------|-------------------------------|-----------|-------|
| Troposphere  |                               |           |       |
| Stratosphere |                               |           |       |
| Mesosphere   |                               |           |       |
| Thermosphere |                               |           |       |
| Exosphere    |                               |           |       |
